

### 12V PEAK HXP LI-ION MICRO DRIVER

High power HXP Li-ion battery technology reinvents the way the world uses cordless power tools. Three times longer run time, fade free power and almost half the weight, HXP Batteries puts the user in complete control.

**Longer Life**  
Overall battery life is extended 3 times longer than NiCd & NiMH batteries

**Fade Free Power**  
Hitachi's HXP Li-ion batteries produces consistent power with no RPM slowdown unlike traditional Ni-Mh/Ni-Cd and other competitive Li-ion batteries.

**Internal Circuitry**  
HXP batteries are equipped with a current interruption detection system, thermal protector and an electronic switch to protect batteries against overcharge and discharge

**Battery Storage**  
All HXP batteries have a low power discharge while in storage assuring that your tools will always be ready when you are.

**Overcharge And Discharge Protection**  
Circuit technology featured in the battery and universal charger prevents the battery from losing full power when in use and overheating when charging, ensuring a full charge each time.

**LED Light Ring**  
Surrounding the chuck effectively illuminates dim work areas

**Size-to-weight Ratio**  
Compact and lightweight weighing only 1.8 pounds for easy cutting applications

**Battery Indicator**  
Battery charge indicator light warns the user when run-time is getting low

**Best-in-class 21+1 Clutch**  
With 21 torque settings and a drill mode for ultimate precision and control in both forward and reverse
